## We need you!

Over the years our members have come and gone. Unfortunately it seems as though more have gone than stayed. We invite you to renew your association with Pi Lambda Theta and Gamma Gamma Chapter. We know everyone is very busy, but please put us on your calendar for at least one event. We think you'll

find the partnerships the international organization has built can greatly enrich your professional life. And on the local scene, we have great programs and lots of fun, too. Please join us and bring a fellow educator.
