

INDIANA UNIVERSITY
KOKOMO

DIVISION OF EDUCATION

Robert and Jennie Trotter Henry Scholarship

This scholarship is designed to assist a student admitted to an approved teacher education program at Indiana University Kokomo during the student teaching semester. Preference will be given to students preparing to teach junior high, middle school, or high school mathematics. In the event that the Scholarship Committee determines that none of the preferred applicants should receive a scholarship or there are no preferred applicants, the scholarship may be awarded to an elementary education student who has demonstrated excellence in mathematics and mathematics education.

There will be one scholarship awarded for \$500.00 that will apply to the 2009/2010 school year.

Scholarship Application

NAME: _____

ADDRESS: _____

PHONE: _____

IU Kokomo E-MAIL: _____ IU Student ID#: _____

OVERALL GPA: _____ MATHEMATICS CONTENT GPA: _____

SEMESTER/YEAR OF STUDENT TEACHING: _____

Please prepare responses to the following and attach to this form. Submit the completed application on or before March 18, 2009 to the Office of the Division of Education. NOTE: Do not place your name on the response page(s). The Division of Education Scholarship committee will read applications to determine the recipient.

1. Leonard Kennedy in Guiding Children's Learning of Mathematics comments: "Mathematics has sometimes served as a gate or filter through which only a few have been able to pass. The principle of equity states that mathematics must be a door that remains open to students from the first day of their education and throughout their lives." How do you plan to keep the door open?

2. Andria Troutman in Mathematics: A Good Beginning comments: "Teaching in a changing world implies that teachers must not only adapt to, but often instigate reforms needed within the mathematics curriculum. Consequently, mathematics teachers must stay abreast of curriculum standards." How do you plan to stay current?
